## **Congratulations to Philip Frick and Sara Almstedt ! You are the winners of the competition to join our CEO for one day.**

Thomas Concrete Group's competition at Chalmers University of Technology with the price to join our CEO for one day has come to an end.

We are very happy to see that so many students took the opportunity to participate in the competition and potentially gain a unique experience. The students from Chalmers impressed us to the point that we decided to give the chance not only to one winner, but two!

**Philip Frick** is studying his second year at the Engineering Physics Program and has an impressive CV for such a young age. He sees every opportunity to learn and gain new experiences. We believe Philip has a promising future in the area of business development

**Sara Almstedt** is studying her master program in Structural Engineering and Building Technology. She has a wonderful passion for concrete as an important building material and an obvious insight to structures of concrete. We believe Sara has a great future in contributing to building a sustainable society.

**We are looking forward to welcoming Philip and Sara to Thomas Concrete Group during Spring!**

### **Thomas Concrete Group AB**

*Thomas Concrete Group is a Swedish family-owned company that produces and distributes high-quality concrete for cast in place construction. The company was established in 1955 in Karlstad, Sweden, by Martin Thomas and currently operates in the USA, Poland, Germany, Norway and Sweden. Headquarters are in Gothenburg, Sweden. The Group has 1,600 employees and produced 3.2 million m<sup>3</sup> of concrete in 2014, with sales of approximately SEK 3.2 billion (~ EUR 350 million).*
